#### NEVADA STATE BOARD OF ACCOUNTANCY MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2023

Our discussion and analysis of the Nevada State Board of Accountancy's (Board) financial condition and activities for the fiscal year ended June 30, 2023, is presented in conjunction with the audited financial statements.

#### **Financial Highlights**

- The Board's net position decreased by approximately \$123,000 during the current fiscal year.
- Program revenue for the fiscal year ended June 30, 2023 was approximately \$669,000 representing a \$17,000 decrease from the fiscal year ended June 30, 2022. The change is primarily due to less revenue from fee recoveries associated to disciplinary matters.
- Operations expenditures increased by approximately \$99,000 from prior fiscal year due primarily to an increase in software support costs.

#### **Overview of Annual Financial Report**

Management's Discussion and Analysis (MD&A) serves as an introduction to, and should be read in conjunction with, the basic audited financial statements and required supplementary information. The MD&A represents management's examination and analysis of the Board's financial condition and performance. Summary financial statement data, key financial and operational indicators used in the Board's strategic plan, budget, and other management tools were used for this analysis.

The Board uses the modified accrual basis of accounting for internal financial statement reporting. The financial statements of the Board have been prepared in accordance with generally accepted accounting principles as applied to governmental units. The financial statements include a Statement of Net Position and Governmental Fund Balance Sheet, a Statement of Activities and Governmental Fund Revenue, Expenditures and Changes in Fund Balance and Notes to Financial Statements.

The *Statement of Net Position and Governmental Fund Balance Sheet* presents the financial position of the Board on both the modified accrual basis to present the general fund and the full accrual basis to present the government-wide financial statements. The statement presents information on all of the Board's assets and liabilities, deferred inflows and outflows, with the difference reported as fund balance or net position. Over time, increases and decreases in fund balance or net position are one indicator of whether the financial position of the Board is improving or deteriorating.

While the Statement of Net Position and Governmental Fund Balance Sheet provides information about the nature and amount of resources and obligations as of year-end, the *Statement of Activities and Governmental Fund Revenue*, *Expenditures and Changes in Fund Balance* presents the results of the activities over the course of the fiscal year and information as to how the net position or fund balance changed during the year. The fund balance changes under the modified accrual method when revenue is received or the expenditure is made, while changes in net position under the full accrual method are recorded as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. This statement also provides certain information about the Board's recovery of its costs.

The *Notes to Financial Statements* provide required disclosures and other information that are essential to a full understanding of material data provided in the statements. The notes present information about the Board's accounting policies, significant account balances and activities, material risks, obligations, commitments, contingencies and subsequent events, if any.

The financial statements were prepared from the detailed books and records of the Board. The financial statements were audited and adjusted, if material, during the independent external audit process.

## NEVADA STATE BOARD OF ACCOUNTANCY MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED) JUNE 30, 2023

#### **Financial Analysis**

The basic financial statements and the required supplementary information serve as the key financial data for the Board members' and management's monitoring and planning. Comments regarding budget-to-actual variances and year-to-year variances are included in the following Results of Operations section.

#### **Financial Condition**

The Board's financial condition remains strong as of year-end with adequate liquid assets. The current financial condition and staff capabilities are sufficient to meet anticipated operating expenses and operational objectives.

#### **Results of Operations**

**Revenues:** The program revenue received by the Board is generated through the registration, renewal and licensure of certified public accountants. Total revenue received by the Board for fiscal year ended June 30, 2023 was approximately \$669,000 representing a \$17,000 decrease from the fiscal year ended June 30, 2022. Program revenue was consistent when compared to the budget amount.

**Expenses:** Total expenses for the fiscal year totaled approximately \$800,000. When compared to the fiscal year ending June 30, 2022, this represents an increase of approximately \$99,000 resulting primarily from an increase in operations expense. When compared to budget, overall expenses were approximately \$11,000 greater than expected due primarily to higher than anticipated software support costs.

Personnel expenses increased by approximately \$18,000 when compared to the prior fiscal year. This is primarily related to the salary modification and vacation payout.

**Operations:** Operating expense increased by approximately \$85,000 when compared to the prior fiscal year. This increase is primarily related to costs associated with the new website development and testing.

Travel expenses increased by approximately \$6,000 when compared to the prior fiscal year. This is primarily related to the easement of travel restrictions imposed during the COVID-19 worldwide pandemic.

Depreciation and amortization expenses decreased by approximately \$2,000 compared to the prior fiscal year, and recognized interest expense pertaining to the amortization of the lease payments per GASB 87 decreased by approximately \$7,000.

#### **Economic Factors**

The Board is charged with, and given statutory authority, to provide public protection through the licensure and regulation of Certified Public Accountants. The Board provides direction of staff actions toward its mission of public protection through licensure and disciplinary measures.

## Casey Neilon, Inc. Accountants and Advisors

#### INDEPENDENT AUDITOR'S REPORT

To the Members of the Board Nevada State Board of Accountancy Reno, Nevada

#### **Report on the Audit of the Financial Statements**

#### **Opinions**

We have audited the accompanying financial statements of the governmental activities and the major fund of the Nevada State Board of Accountancy (the "Board"), as of and for the year ended June 30, 2023, and the related notes to financial statements, which collectively comprise the Board's basic financial statements, as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and the major fund of the Board as of June 30, 2023, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Board, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Board's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a

material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Board's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, pension and other post-employment benefits information on pages 1-4, 27-28, 29-33, respectively, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on this required information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated November 13, 2023, on our consideration of the Board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Board's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Board's internal control over financial reporting and compliance.

Carson City, Nevada

Casey Neilon

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Nature of Activities

The Nevada State Board of Accountancy (Board) was created in 1913 and obtained statutory authority in 1960. The Board is regulated by the Nevada Revised Statutes, which also specify the authorized activities of the Board. The Board is the licensing and regulatory agency for the practice of accounting in the State of Nevada.

The financial statements of the Board have been prepared in accordance with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The following is a summary of the significant accounting policies used by the Board.

#### **Reporting Entity**

Effective July 1, 2001, Chapter 353.005 of the Nevada Revised Statutes (NRS) was amended to exempt certain professional and occupational boards from the Nevada State Budget Act and the provisions governing the administration of state funding. The provisions of Chapter 353.005 do not apply to boards created by the provisions of NRS 590.485 and chapters 623 and 625A, inclusive, 628, 630 to 644A, inclusive, 648, 654 and 656 of the NRS and the officers and employees thereof. Accordingly, the Board's budgeting and accounting practices and procedures have been removed from the oversight of the Department of Administration.

The Board's financial statements are not included in the general-purpose financial statements of the State of Nevada since the State does not exercise financial or administrative control over the Board. This is in conformance with GASB Codification Section 2100, *Defining the Financial Reporting Entity*.

#### **Basis of Presentation**

The Board is defined as a single-program special-purpose entity under GASB Statement No. 14, paragraph 131 as amended by GASB Statement No. 39. This classification allows for the preparation of GASB Statement No. 34 financial statements, as amended by GASB Statement No. 63, under an optional reporting method which combines the fund and government-wide statements into a single presentation. Under standard GASB Statement No. 34 methodology, the government-wide statement of net position and statement of activities are presented independently from the respective fund balance sheet and statement of revenues, expenditures, and fund balance. A reconciliation of adjustments provided on the modified financial statements demonstrates the changes from the fund financial statements to the government-wide financial statements in order to assist the reader in evaluating these statements. The Board has utilized this optional method of presentation.

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **Fund Accounting**

Under Chapter 628.140 of the Nevada Revised Statutes, the general fund of the Board is used to account for the proceeds of specific revenue sources that are legally restricted to expenditures to be used solely for the Board's benefit. According to statute, any money deposited to the Nevada State Board of Accountancy does not revert to the State of Nevada's general fund. The net assets of the general fund are restricted solely to be used by the Board to meet its obligation of licensing and regulating the practice of public accounting in the State of Nevada.

#### **Basis of Accounting**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

The Board has only governmental fund types.

#### **Budget Data**

The Board prepares an annual budget. The budget is prepared on a basis similar to generally accepted accounting principles under the modified accrual basis of accounting. All annual appropriations lapse as of fiscal year-end.

#### Accounts Receivable

For the governmental fund financial statements, the accounts receivable represents fees and fines collected within 60 days subsequent to year-end that are an available resource for the current year. For the government-wide financial statements the accounts receivable represents fees and fines due as of year-end. All amounts are considered collectible by management.

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Cash and Cash Equivalents

Cash is maintained in one commercial bank in Reno, Nevada. The Board participates in the State of Nevada collateralization program to assure that funds deposited are protected.

Cash also consists of time certificates of deposit, which are stated at fair value. The net increase (decrease) in the fair value of the investments is the difference between the cost (if purchased during the fiscal year) or the fair value of the investments at the beginning of the year, and the fair value of the investments at the end of the year. Changes in fair value of the certificates are reflected, together with interest income, as investment income in the accompanying financial statements. The Board's certificates are held in its name and it participates in the State of Nevada Pooled Collateral Program to assure that funds deposited are protected. By statute, all cash must be deposited in entities that are located in the State of Nevada.

The Board has not adopted formal policies that limit the allowable deposits and address the specific types of risk to which the Board is exposed. Due to the nature of holdings, the Board does not believe it is exposed to significant risk.

#### Capital Assets

Capital assets, which include furniture, fixtures, equipment are reported in the government-wide financial statements. Capital assets are defined by the Board as assets with an initial, individual cost of \$2,500 and an estimated useful life of at least one year. Such assets are recorded at historical cost. Donated assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are expensed as incurred. Capital assets are depreciated using the straight-line method over 3 to 20 years.

Under the modified accrual basis of accounting, acquisitions are considered expenditures in the year purchased.

#### Compensated Absences

It is the Board's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. A liability is reported for unpaid accumulated vacation or sick leave on the general fund balance sheet if amounts were paid within 60 days subsequent to year end.

#### Licensing Fees Received in Advance

By provisions of statute, the Board administers its licensing registration on a calendar year basis. Licensing fees received in advance represents revenue from the calendar year renewals that relates ratably over the next fiscal year.

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Deferred Outflows and Inflows of Resources

In addition to assets, a separate section is reported for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, a separate section is reported for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time.

#### Fund Equity and Net Position

As defined in GASB Statement No. 54, in the governmental fund financial statement, fund balances are classified as follows:

- Nonspendable represents amounts that are either not in a spendable form or are legally or contractually required to remain intact. Prepaid expenses are classified as nonspendable fund balance.
- Restricted amounts that can be used only for specific purposes due to (a) constitutional provisions or enabling legislation or (b) externally imposed constraints.
- Committed amounts that can be used only for specific purposes due to a formal action of the governing body.
- Assigned amounts intended to be used for specific purposes that do not meet the criteria to be classified as restricted or committed.
- Unassigned represents all amounts not included in other classifications.

The Board's policy is to first apply expenditures against restricted fund balances. In instances where an unrestricted fund balance type could be used, it is the Board's policy to first apply expenditures against committed fund balances. On an annual basis, when applicable, assigned fund balances are determined based upon available resources.

In the government-wide financial statements, net position is classified, as follows:

Net investment in capital assets and lease assets, net of related debt - amount of capital
assets, net of accumulated depreciation, lease assets, net of accumulated amortization and
any related debt.

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Fund Equity and Net Position (Continued)

- Restricted net position consists of net position with constraints placed on their use either by (1) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- Unrestricted net position amounts not included in other classifications.

The Board's policy is to first apply restricted net position when an expenditure is incurred for which both restricted and unrestricted net position are available.

#### **Pensions**

For purposes of measuring the net pension liability, related deferred outflows of resources, deferred inflows of resources and pension expense, information about the fiduciary net position of the Public Employees' Retirement System of Nevada (PERS) and additions to/deductions from PERS's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the net OPEB liability, related deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Self Insurance Trust Fund, Public Employees' Benefits Program (PEBP) and additions to/deductions from PEBP's fiduciary net position have been determined on the same basis as they are reported by PEBP. For this purpose. PEBP recognizes benefit payments when due and payable in accordance with the benefit terms. PEBP's cash and cash equivalents consist of short-term, highly liquid investments that are both (a) readily convertible to known amounts of cash and (b) so near to maturity that they present insignificant risk of changes in value due to changing interest rates.

#### Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### Memorandum Only - Total Columns

Total columns in the financial statements are captioned "memorandum only" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, changes in net assets or cash flows in conformity with generally accepted accounting principles.

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### New Accounting Pronouncement

During the year ended June 30, 2023 the Board implemented the provisions of GASB Statement No. 96, Subscription Based Technology Arrangements. The objective of this statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for subscriptions of technology that carries a right to use the underlying assets. This statement increases the usefulness of the Board's financial statement for users by requiring recognition of certain subscription assets and liabilities similar to operating leases under GASB Statement No. 87. After review of the Board's contracts, all fall under the short-term SBITA exemption under GASB Statement No. 96. GASB Statement No. 96 defines a short-term SBITA as having a maximum possible term of 12 months at the commencement of the subscription term. This includes any renewal or extension options regardless of reasonable certainty of exercising these options. Under this exemption, the Board does not need to recognize any subscription assets or liabilities for the year ended June 30, 2023.

#### Subsequent Events

Subsequent events have been evaluated through November 13, 2023, which is the date the financial statements were available to be issued.

The State of Nevada Board of Examiners approved the Board's office lease agreement on July 11, 2023. The effective date of the new agreement was July 1, 2023.

The 2023 Nevada Legislature passed Senate Bill 431. Section 19 of Senate Bill 431 ("SB 431") created the Office of Nevada Boards, Commissions and Councils Standards within the Department of Business and Industry. The Nevada State Board of Accountancy is under the purview of the Office of Nevada Boards, Commissions and Councils as provided in Section 20(2)(a) of SB 431. Pursuant to Section 147, Sections 19 and 20 of SB 431 became effective July 1, 2023. The implications of SB 431 on the Board's operations and reporting structure are not known at this time.

#### NOTE 2. CASH AND CASH EQUIVALENTS

The Board maintains its deposit accounts and certificates of deposit in one major commercial bank. The time certificates of deposit are held in the name of the Board. The accounts are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000 per institution, per depositor.

The bank balances at June 30, 2023 totaled \$1,240,453. Of this amount, \$250,000 was insured by the FDIC and the balance of \$971,722 was collateralized with securities held by the State of Nevada Pooled Collateral Program.

By provisions of statutes, the Board is required to deposit all money in banks or savings and loan associations located in the State of Nevada.

#### NOTE 3. CAPITAL ASSETS

The Board has custodial responsibility to the State of Nevada for furniture, fixtures, equipment, and right-of-use lease assets acquired with resources of the Board. The capital asset activity during the year is as follows:

	2022	Increases	Decreases	2023
Office furniture and equipment	\$ 103,089	\$ -	\$ -	\$ 103,089
Lease asset	205,187	-	-	205,187
Less: accumulated amortization and depreciation	(129,681)	(16,112)		(145,793)
	\$ 178,595	\$ (16,112)	\$ -	\$ 162,483

#### NOTE 4. LEASES

The Board currently leases office space in Reno, Nevada. The initial lease term began September 1, 2013, expires August 31, 2023, and includes an option to extend for one ten year period. Payments are due monthly with a 1.5% escalation per annum. As the Board is reasonably certain to exercise the option to extend, the lease liability and related right-to-use asset reflect the extended term.

The lease assets consist of the following at June 30, 2023:

Lease assets, office	205,187
Accumulated amortization	 (46,751)
	\$ 158,436

Future minimum payments are required as follows during the years ended June 30:

	F	Principal Interest		Interest	Total		
2024 2025	\$	12,059 12,990	\$	8,390 7,766	\$	20,449 20,756	
2026		13,973		7,094		21,068	
2027		15,012		6,372		21,384	
2028		16,108		5,597		21,704	
2029 and after	103,116			14,295		117,411	
	\$	173,258	\$	49,514	\$	222,772	

#### NOTE 4. LEASES (CONTINUED)

Lease liability activity is as follows:

2022	Increases		Decreases		2023		Curre	ent Portion
\$ 184,436	\$	_	\$	(11,178)	\$	173,258	\$	12.059

#### NOTE 5. PENSION

#### General Information about the Pension Plan

#### Plan Description

Public Employees' Retirement System of Nevada (PERS or System) administers a cost-sharing, multiple-employer, defined benefit public employees' retirement system which includes both Regular and Police/Fire members. The System was established by the Nevada Legislature in 1947, effective July 1, 1948. The System is administered to provide a reasonable base income to qualified employees who have been employed by a public employer and whose earnings capacities have been removed or substantially impaired by age or disability.

#### General Information about the Pension Plan (Continued)

#### Benefits Provided

Benefits, as required by the Nevada Revised Statutes (NRS or statute), are determined by the number of years of accredited service as of the time of retirement and the member's highest average compensation in any 36 consecutive months with special provisions for members entering the System on or after January 1, 2010, and July 1, 2015. Benefit payments to which participants or their beneficiaries may be entitled under the plan include pension benefits, disability benefits, and survivor benefits.

Monthly benefit allowances for members are computed as 2.5% of average compensation for each accredited year of service completed prior to July 1, 2001. For service earned on or after July 1, 2001, this factor is 2.67% of average compensation. For members entering the System on or after January 1, 2010, there is a 2.5% multiplier and for Regular members entering the System on or after July 1, 2015, there is a 2.25% factor. The System offers several alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his or her lifetime and various optional monthly payments to a named beneficiary after his or her death.

Post-retirement increases are provided by authority of NRS 286.575 - 286.579.

#### NOTE 5. PENSION (CONTINUED)

#### Vesting

Regular members entering the System prior to January 1, 2010, are eligible for retirement at age 65 with 5 years of service, at age 60 with 10 years of service, or at any age with 30 years of service. Regular members entering the System on or after January 1, 2010, are eligible for retirement at age 65 with 5 years of service, at age 62 with 10 years of service, or at any age with 30 years of service. Regular members who entered the System on or after July 1, 2015, are eligible for retirement at age 65 with 5 years of service, at age 62 with 10 years of service, at age 55 with 30 years of service, or at any age with 33 1/3 years of service.

The normal ceiling limitation on monthly benefits allowances is 75% of average compensation. However, a member who has an effective date of membership before July 1, 1985, is entitled to a benefit of up to 90% of average compensation. Regular members become fully vested as to benefits upon completion of 5 years of service.

#### Contributions

The authority for establishing and amending the obligation to make contributions and member contribution rates is set by statute. New hires, in agencies which did not elect the Employer-Pay Contribution (EPC) plan prior to July 1, 1983, have the option of selecting one of two contribution plans. In one plan, contributions are shared equally by employer and employee. In the other plan, employees can take a reduced salary and have contributions made by the employer.

#### General Information about the Pension Plan (Continued)

The System's basic funding policy provides for periodic contributions at a level pattern of cost as a percentage of salary throughout an employee's working lifetime in order to accumulate sufficient assets to pay benefits when due.

The System receives an actuarial valuation on an annual basis indicating the contribution rates required to fund the System on an actuarial reserve basis. Contributions made are in accordance with the required rates established by the Nevada Legislature. These statutory rates are increased/decreased pursuant to NRS 286.421 and 286.450.

The actuarial funding method used is the Entry Age Normal Cost Method. It is intended to meet the funding objective and result in a relatively level long-term contributions requirement as a percentage of salary.

For the year ended June 30, 2022, the statutory employer/employee matching rate was 15.50% for Regular members. The EPC rate was 29.75% for Regular members.

#### NOTE 5. PENSION (CONTINUED)

<u>Pension Liabilities</u>, <u>Pension Expense</u>, and <u>Deferred Outflows of Resources and Deferred</u> Inflows of Resources Related to Pensions

At June 30, 2023, the Board reported a liability of \$562,744 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Board's proportion of the net pension liability was based on total contributions due on wages paid during the measurement period. Each employer's proportion of the net pension liability is based on their employer contributions relative to the total combined employer contributions for all employers for the period ended June 30, 2022. At June 30, 2023, the Board's proportion was .00312%.

For the year ended June 30, 2023, the Board recognized pension expense of \$47,596. Board contributions totaling \$35,008 made subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2023.

### <u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)</u>

	•	Outflows of Resources		flows of esources
Difference between actual and expected experience Change in assumptions	\$	72,866 72,287	\$	402
Net difference between projected and actual investment earnings on pension plan investments		6,866		_
Changes in proportion and differences between employer contributions and proportionate share of contributions		-		16,205
Contributions subsequent to the measurement date		35,008		
	\$	187,027	\$	16,607

#### NOTE 5. PENSION (CONTINUED)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions, without regard to the contribution subsequent to the measurement date, will be recognized in pension expense (contribution) as follows during the year ended June 30:

2024		\$ 17,132
2025		17,739
2026		16,699
2027		74,517
2028	_	9,325
		\$ 135,412

The net difference between projected and actual investment earnings on pension plan investments will be recognized over 5 years. All the other above deferred outflows and deferred inflows will be recognized over the average expected remaining service lives, which was 5.7 years for the period ended June 30, 2022.

Reconciliation of the net pension liability as of June 30, 2023 is as follows:

Beginning net pension liability	\$ 288,330
Pension expense	47,596
Employer contributions	(34,285)
Prior year net deferred outflows	261,103
Ending net pension liability	\$ 562,744

#### Actuarial Assumptions

The System's net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate	2.50%
Productivity pay increase	0.50%
Projected salary increases	Regular: 4.20% to 9.10%, depending on service;
	Rates include inflation and productivity increases
Investment rate of return	7.25%
Other assumptions	Same as those used in the June 30, 2022, funding actuarial valuation

Actuarial assumptions used in the June 30, 2022 valuation were based on the results of the experience study for the period of July 1, 2016 through June 30, 2020.

#### NOTE 5. PENSION (CONTINUED)

The discount rate used to measure the total pension liability was 7.25% as of June 30, 2022. The projection of cash flows used to determine the discount rate assumed plan contributions will be made consistent with statutory provisions and recognizing the plan's current funding policy and cost-sharing mechanism between employers and members. For this purpose, all contributions that are intended to fund benefits for all plan members and their beneficiaries are included, except that projected contributions that are intended to fund the service costs for future plan members and their beneficiaries are not included.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2022.

#### Investment Policy

The System's policies which determine the investment portfolio target asset allocation are established by the Retirement Board. The asset allocation is reviewed annually and is designed to meet the future risk and return needs of the System.

The following was the Retirement Board's adopted policy target asset allocation as of June 30, 2022:

		Long-Term Geometric
	Target	Expected Real Rate of
Asset Class	Allocation	Return*
Domestic stocks	42%	5.50%
International stocks	18%	5.50%
U.S. bonds	28%	0.75%
Private markets	12%	6.65%

<sup>\*</sup>As of June 30, 2022, PERS' long-term inflation assumption was 2.50%

Discount Rate and Pension Liability Discount Rate Sensitivity

The following presents the Board's proportionate share of net pension liability of the System as of June 30, 2022, calculated using the discount rate of 7.25%, as well as what the System net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.25%) or 1 percentage-point higher (8.25%) than the current discount rate:

	1% I	Decrease in			1%	Increase in
	(	6.25%)	(7.25%) (8.25%)			(8.25%)
Net pension lability						
	\$	864,869	\$	562,744	\$	314,483

#### NOTE 5. PENSION (CONTINUED)

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in PERS' Annual Comprehensive Financial Report (ACFR), available on the PERS website at www.nvpers.org.

#### Additional Information

Additional information supporting the Schedule of E'mployer Allocations and the Schedule of Pension Amounts by Employer is located in the PERS Annual Comprehensive Financial Report (ACFR) available on the PERS website at www.nypers.org under Quick Links - Publications.

#### NOTE 6. OTHER POST-EMPLOYMENT BENEFITS (OPEB)

#### Plan Description

Employees of the Board are provided with OPEB through the Self Insurance Trust Fund, Public Employees' Benefits Program (PEBP) - a cost-sharing multiple employer defined benefit OPEB plan administered by the Public Employees' Benefits Program Board (PEBP Board) which was created in 1983 by the Nevada Legislature to administer group health, life and disability insurance for covered employees, both active and retired, of the State, and certain other participating public employers within the State. PEBP does not provide for refunds of employee contributions. The Self Insurance Trust Fund issues a publicly available financial report that can be obtained at https://pebp.state.nv.us/. The Board is reporting plan information consistent with the PEBP's accounting methods and assumptions as disclosed in the annual report. No information has come to our attention that indicates significant changes to the plan's disclosures.

#### **OPEB Benefits**

PEBP provides medical, dental, vision, mental health and substance abuse benefits, and also offers fully insured HMO products. Long-term disability and life insurance benefits are fully insured by outside carriers.

#### Contributions

Per NRS 287 contribution requirements of the participating entities and covered employees are established and may be amended by the PEBP Board. The Board's contractually required contribution for the year ended June 30, 2023 was \$6,351, actuarially determined as an amount that is expected to finance the costs of benefits earned by employees during the year. Employees are not required to contribute to the OPEB plan.

#### NOTE 6. OTHER POST-EMPLOYMENT BENEFITS (OPEB) (CONTINUED)

OPEB Liabilities, OPEB Expense, and Deferred Outflows and Inflows of Resources Related to OPEB

At June 30, 2023, the Board reported a liability of \$223,542 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2022, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The Board's proportion of the net OPEB liability was based on a projection of the Board's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating state agencies, actuarially determined. At June 30, 2023, the Board's proportion was 0.0155%.

For the year ended June 30, 2023, the Board recognized OPEB expense of \$13,234. Board contributions totaling \$6,351 made subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2023.

OPEB Liabilities, OPEB Expense, and Deferred Outflows and Inflows of Resources Related to OPEB (Continued)

	Deferred			eferred
	Out	fows of	In	fows of
	Resources		Re	esources
Differences between actual and expected experience	\$	-	\$	7,444
Changes of assumptions		8,157		18,611
Asset experience		-		92
Implicit subsidy		-		2,226
Contributions made subsequent to the measurement date		6,351		-
	\$	14,508	\$	28,373

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB, without regard to the contribution subsequent to the measurement date and implicit subsidy, will be recognized in OPEB expense as follows:

2024 2025	\$	(5,310) (5,815)
2026 2027		(6,856) (9)
	_\$_	(17,990)

#### NOTE 6. OTHER POST-EMPLOYMENT BENEFITS (OPEB) (CONTINUED)

Actuarial Assumptions

The total OPEB liability in the June 30, 2022 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation rate 2.5%

Salary increases Regular: 4.20% to 9.10%, depending on service

Investment rate of return 2.5%

Healthcare cost trend rates 4.80% increase effective July 1, 2023

Healthy mortality rates were based on the PUB-2010 Public Retirement Plans Safety Mortality Table weighted by Headcount, projected by MP-2020 for officers, and PUB-2010 Public Retirement Plans General Mortality Table weighted by Headcount, projected by MP2020 for civilians. Disabled mortality rates were based on the PUB-2010 Public Retirement Plans Safety Disabled Mortality Table weighted by Headcount, projected by MP-2020 for officers, and PUB-2010 Public Retirement Plans General Disabled Mortality Table weighted by Headcount, projected by MP-2020 for civilians.

Plan fiduciary net position (plan asset) was valued as of the measurement date of June 30, 2022 and the total OPEB liability was determined from actuarial valuation using data as of measurement date June 30, 2022.

#### Discount Rate

The discount rate basis under GASB Statement No. 75 is required to be consistent with a 20-Year Municipal Bond Index. The Bond Buyer General Obligation 20-Bond Municipal Bond Index is used for the determination of the discount rate.

The discount rates as of the measurement date of June 30, 2022 was 3.54%. Additional detail regarding the discount rates as of June 30, 2022 are provided in the "Actuarial Assumptions and Actuarial Cost Methods" section of the report provided by the PEBP Board.

Sensitivity of the Board's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following presents the Board's proportionate share of the net OPEB liability, as well as what the Board's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current discount rate:

	1% Decrease		Tr	end Rate	1% Increase		
Net OPEB liability	\$	245,816	\$	223,542	\$	204,258	

#### NOTE 6. OTHER POST-EMPLOYMENT BENEFITS (OPEB) (CONTINUED)

Sensitivity of the Board's Proportionate Share of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the Board's proportionate share of the net OPEB liability, as well as what the Board's proportionate share of the net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

		Health Care Cost Trend Rates							
	1%	1% Decrease		Trend Rate		1% Increase			
		_		_		_			
Net OPEB liability	\$	212,735	\$	223,542	\$	235,918			

OPEB Plan Fiduciary Net Position

Detailed information about the OPEB plan's fiduciary net position is available in the separately issued PEBP financial report.

#### NOTE 7. CONVERSION TO GOVERNMENT-WIDE FINANCIAL STATEMENTS

Adjustments on the face of the financial statements were made to the fund balance sheet and statement of revenue, expenditures and changes in fund balance in order to reconcile the fund financial statements to the government-wide statements of net position and activities. The amounts reported for the governmental activities in the statement of activities are different due to the adjustments as explained below.

Governmental funds report cash outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. Additionally, revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

## NOTE 7. CONVERSION TO GOVERNMENT-WIDE FINANCIAL STATEMENTS (CONTINUED)

#### NEVADA STATE BOARD OF ACCOUNTANCY NOTES TO REQUIRED SUPPLEMENTARY INFORMATION FOR THE YEAR ENDED JUNE 30, 2023

#### NOTE 1. CHANGES IN ASSUMPTIONS

#### Pension

Amounts reported in 2023 reflect actuarial assumption changes effective June 30, 2022 based on the results of an actuarial experience study completed in 2020. As of the measurement date of June 30, 2022, the discount rate of 7.25% as unchanged when compared to the prior measurement date of June 30, 2021.

#### OPEB

Amounts reported in 2023 reflect actuarial assumption changes effective June 30, 2022 based on the results of an actuarial experience study completed in 2022. This includes changes to the mortality tables, disability incidence rates, retirement rates, administrative expenses, salary scale and percent married assumption. As of the measurement date of June 30, 2022, the discount rate increased from 2.16% to 3.54% when compared to the prior measurement date of June 30, 2021.

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Members of the Board Nevada State Board of Accountancy Reno, Nevada

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the major fund of the Nevada State Board of Accountancy (the "Board'), as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Board's basic financial statements, and have issued our report thereon dated November 13, 2023.

#### Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Board's internal control over financial reporting ("internal control") to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control. Accordingly, we do not express an opinion on the effectiveness of the Board's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

#### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Board's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Board's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Board's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
